

Physicochemical Problems of Mineral Processing

Volume 55, Issue 3, 2019

An international journal which covers theoretical approaches and their practical applications in all aspects of mineral processing and extractive metallurgy.

Editor-in-Chief

Przemyslaw B. Kowalczyk, Norwegian University of Science and Technology, Norway

Editors

Emre Naci Altun, Middle East Technical University, Turkey

Jari Aromaa, Aalto University, Finland

Filip Ciesielczyk, Poznan University of Technology, Poland

Hao Du, Chinese Academy of Science, China

Zhiyong Gao, Central South University, China

Christian Jungnickel, Gdansk University of Technology, Poland

Marcin Lutynski, Silesian University of Technology, Poland

Orhan Ozdemir, Istanbul University, Turkey

Magdalena Regel-Rosocka, Poznan University of Technology, Poland

Martin Rudolph, Helmholtz Institute Freiberg for Resource Technology, Germany

Oktay Sahbaz, Dumlupinar University, Turkey

Xuming Wang, University of Utah, USA

Jan Zawala, Polish Academy of Science, Poland

Publication information

It is recommended that the following guidelines are followed by the authors of the manuscripts:

- original papers dealing with principles and technological aspects of mineral processing are published
- the manuscript should be sent to the journal via manuscript management system available at <http://www.editorialsystem.com/ppmp>
- only manuscripts written in English are accepted, contributors whose native language is not English are urged to have their manuscript competently edited prior to submission
- for a full and complete Guide for Authors, please go to: www.journalssystem.com/ppmp/
- all articles are published in full open access. Once the accepted paper appears online Authors are asked to pay an article processing charge (APC).

Submission of papers is tantamount to a transfer of copyrights by the author(s) to Wroclaw University of Science and Technology Publisher covering publication in printed forms as well as electronic media (CD-ROM or Internet) of the articles and any modifications of it.

The papers published in the Physicochemical Problems of Mineral Processing journal are abstracted in BazTech, Chemical Abstracts, Coal Abstracts, EBSCO, Google Scholar, Scopus, Thomson Reuters (Science Citation Index Expanded, Materials Science Citation Index, Journal Citation Reports) and other sources.
